I have reviewed the revised CMMP and have no further comments. I made one teensy edit (forgot a period on page one) in this attachment.

Chip, Mavis,
Attached is the latest CMMP revision. The previous revisions have been accepted and the new revisions added in track changes mode. The new revisions include the changes and comments received at our meeting 10-4-07 and also Mavis's editorial comments. Upon your approval I will finalize and produce the final document for distribution.
